

## MARKET NOTICE

**Market Notice: 2016\_6**

**Date: 22 August 2016**

**Subject: Cessation of Environmental Products Data Publication**

---

Over recent months, the number of contributing organisations for the calculation of AFMAdata Environmental Products weekly data has fallen to three, and on a number of occasions, contributions have been insufficient to satisfy our minimum requirements of two to produce the weekly data. The lack of sufficiency of data contributions is not a sustainable position over the long-term.

Therefore, AFMA regrettably has made a decision to discontinue the provision of this data product in the near future. The contributing organisations have been contacted, and have agreed to continue to contribute data until the end of September 2016 to allow subscribers to make alternative arrangements within this period.

After 30 September 2016, the data will no longer be produced.

### **About AFMA**

The Australian Financial Markets Association (AFMA) is the leading industry association promoting efficiency, integrity and professionalism in Australia's financial markets and provides leadership in advancing the interests of all market participants. These markets are an integral feature of the economy and perform the vital function of facilitating the efficient use of capital and management of risk. Market participants perform a range of important roles within these markets, including financial intermediation and market making.

AFMA represents over 120 members including Australian and international banks, leading brokers, securities companies, state government treasury corporations, fund managers, traders in electricity and other specialised markets and industry service providers.
